OUTDOOR AND INDOOR DISPLAY
LED LIGHTING KIT

TECHNICAL CHARACTERISTICS

> High-quality white light, 120 lumens per watt,
  LED: IP 20, 4000 kelvin
> IP 67 transformers
> Run time: 75,000 operating hours
> Power consumption: 12.5 watts per linear metre
> Reference table: see the product code for the
  applicable sized notice board
> Wiring recommendations (maximum distance
  per linear metre of LED ribbon):
  • 5 m with 2 x 0.75 mm cable
  • 10 m with 2 x 1.5 mm cable
  • 15 m with 2 x 2.5 mm cable
> Kits consisting of one or more adhesive LED
  ribbons and a transformer, depending on the size
  of the notice board
> Please note that LED kits are not suitable for display
  lighting

INSTALLATION

> Installation required: Not Factory fitted.
> Warning: the electrical connection must be
  carried out by a professional Electrician and
  comply with current applicable safety regulations
